FORMATION

rule book

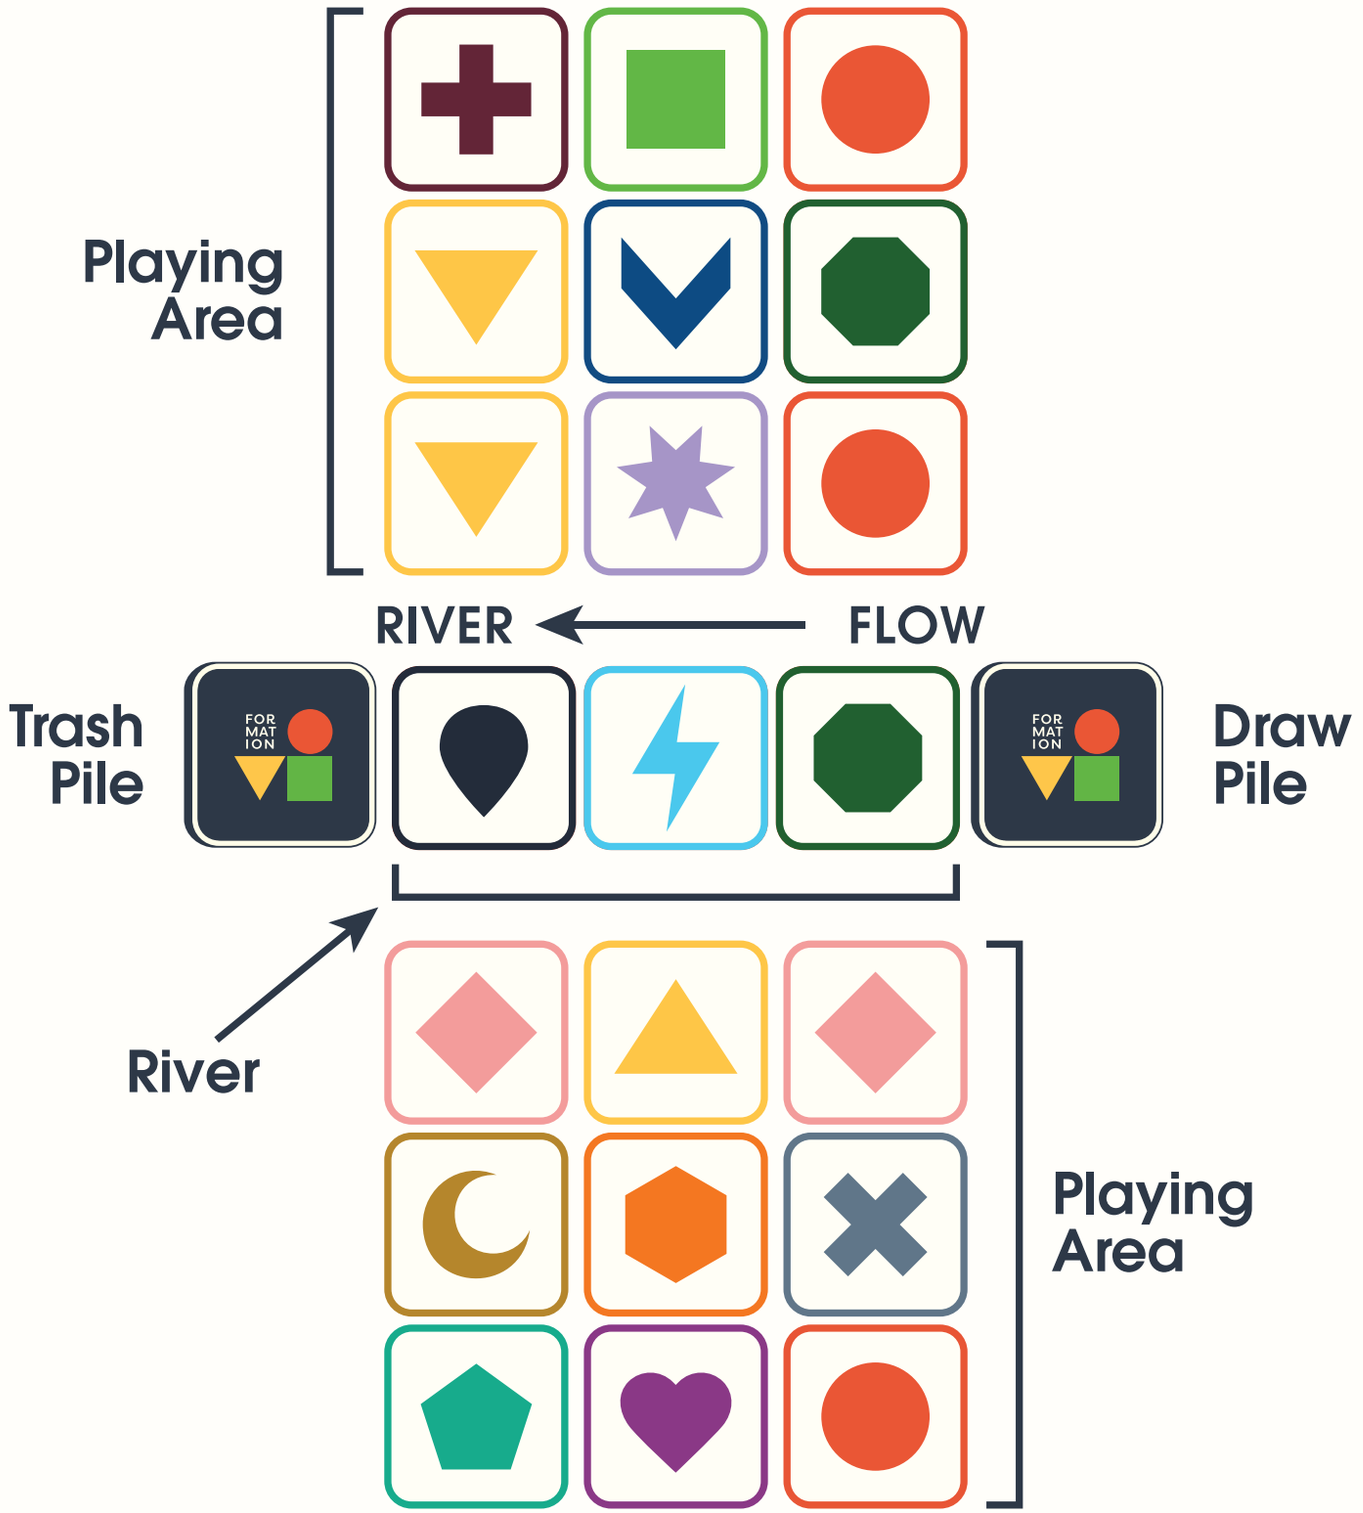

GAME SETUP

Playing Areas: Deal each player nine cards and lay the cards in a 3x3 grid in front of them in the order in which they were dealt.

Draw Pile: Place the remaining cards face down between the players.

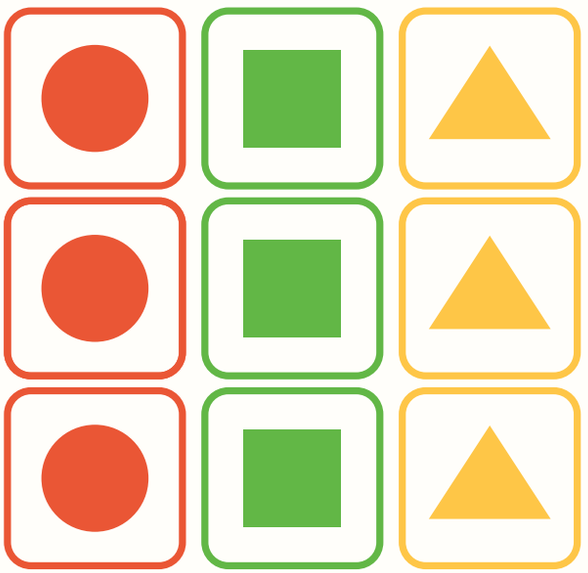

River: Count the number of players and add one. Take that many cards from the top of the Draw Pile, and lay them out next to each other face up. The card next to the Draw Pile is the start of the River.

Trash Pile: As cards are played, cards in the River will flow into the Trash Pile at the end of the River. The Trash Pile is empty at the start of the game.

HOW TO WIN

Be the first player to line up three rows or columns of the same suit.

WINNER

WINNER

HOW TO PLAY

Decide who will play first. Then each player must perform one of the following actions on their turn: **Discard, Switch, Collect, Replace, or Steal.** Players take turns until a player has won the game by lining up three rows or columns of the same suit.

At the end of a turn, all players will have nine cards in their Playing Area, and there will be the number of players +1 cards in the River. When there are no more cards in the Draw Pile, the Trash Pile is shuffled and a new Draw Pile is formed.

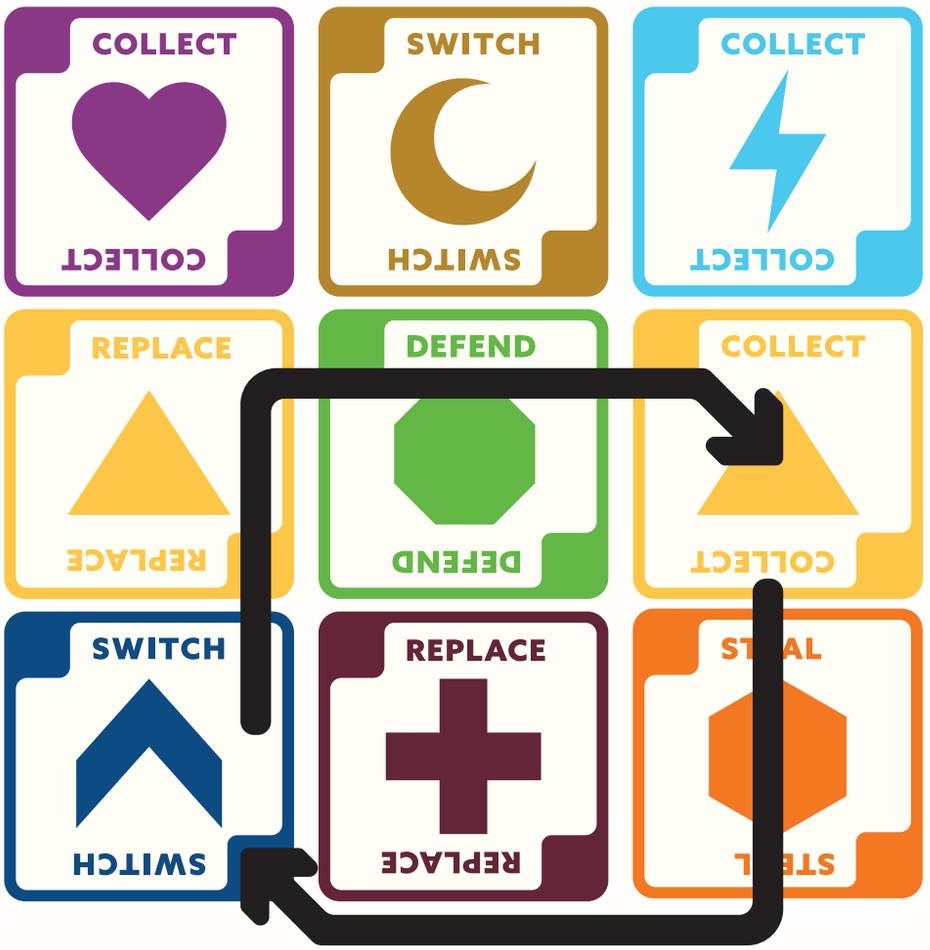

DISCARD

Any card in a player's Playing Area may be discarded. Discarding is the only action that does not utilize a card's ability.

Choose a card to discard. Place it at the beginning of the River while placing the last card in the River into the Trash Pile. Grab a new card from the Draw Pile, and place it in the empty spot in your playing area.

SWITCH

Trade the position of a Switch card with any other card in your Playing Area.

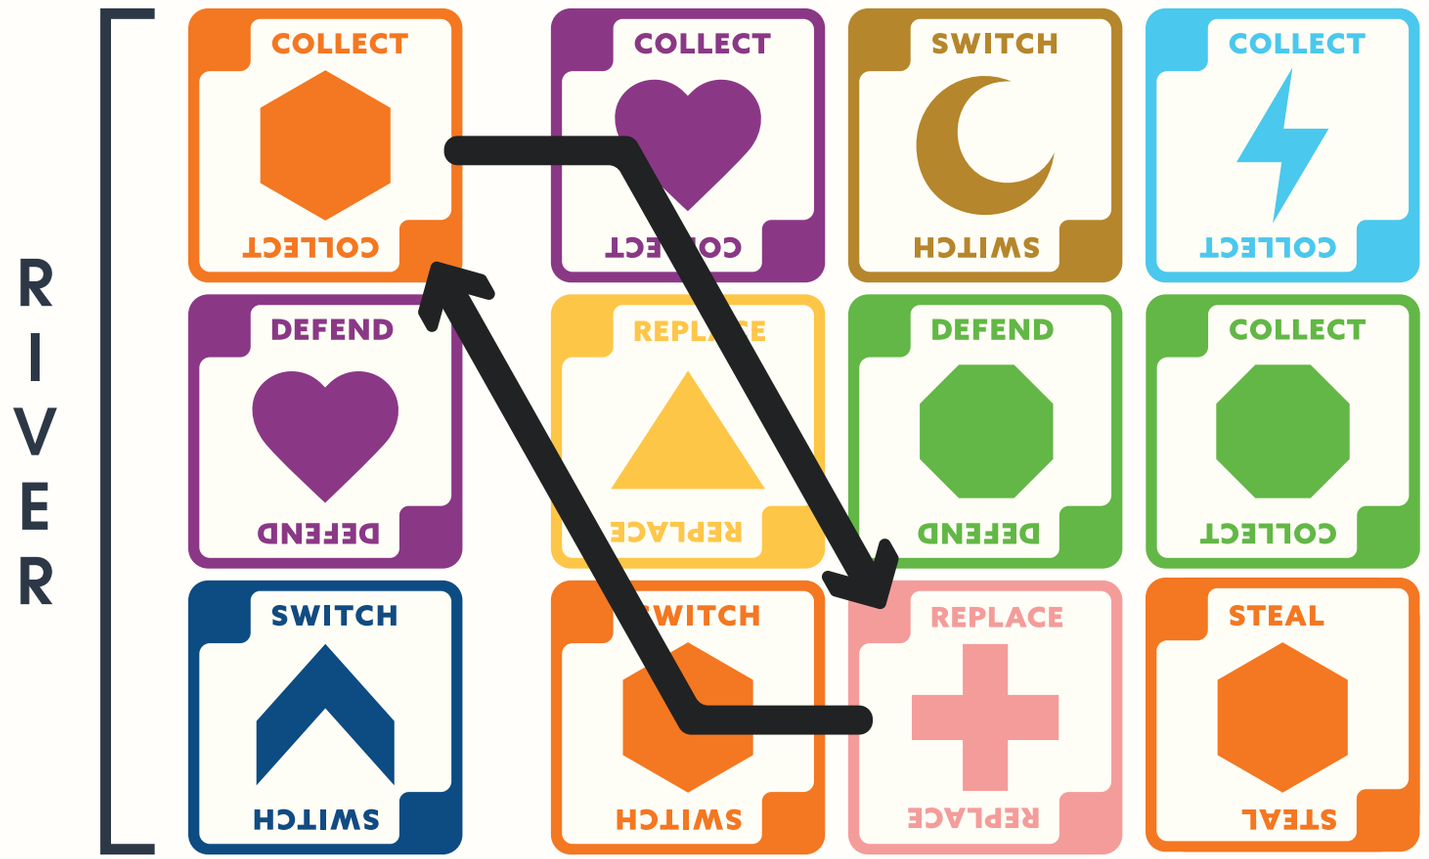

COLLECT

Place the Collect Card at the beginning of the River while moving the last two cards in the River face down into the Trash Pile. Draw two cards from the top of the Draw Pile. Place one of the drawn cards of your choice into the empty space of your Playing Area. Place the other card face up at the beginning of the River.

REPLACE

Replace a Replace card from your Playing Area with any card in the River.

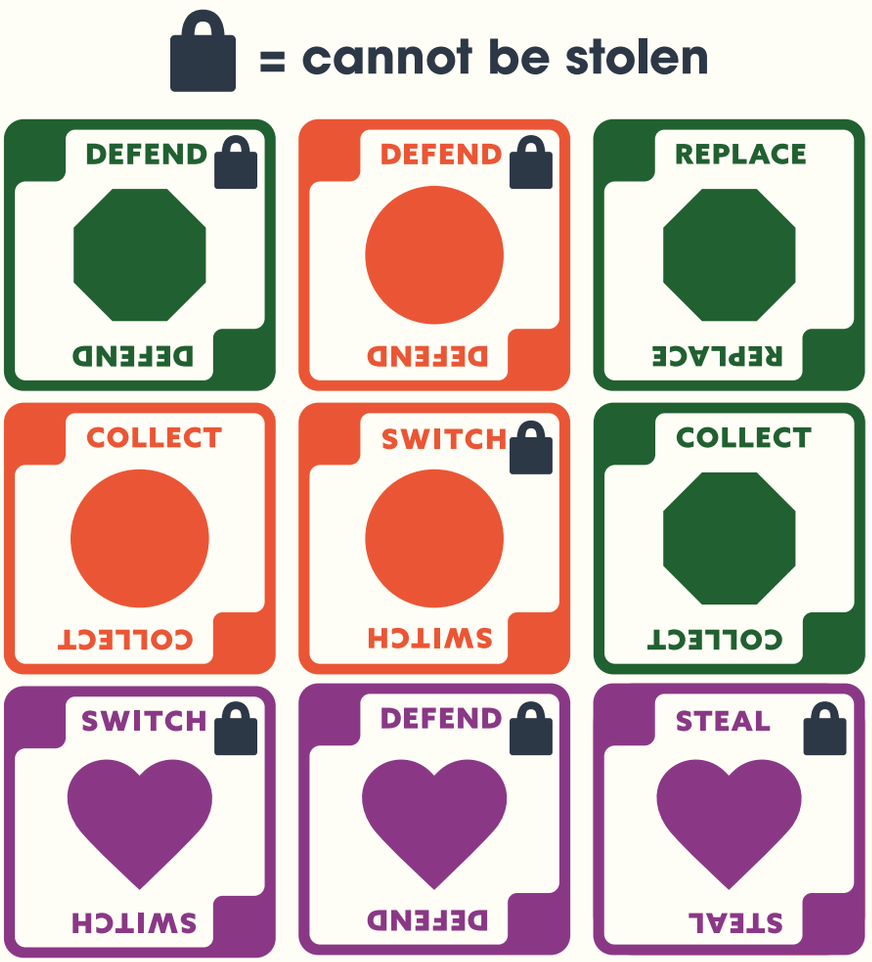

STEAL

Place the Steal Card at the beginning of the River while moving the last card in the River into the Trash Pile. Take an undefended opponent's card (see Defend ability), and place it in the space where your Steal Card was positioned. Take a card from the top of the Draw Pile, and place it in the empty space in the opponent's playing area

DEFEND

The Defend ability is always active. An opponent cannot steal a Defend Card or any adjacent cards of the same suit.
